

SAFETY DATA SHEET

Current Revision: 1, 3/11/2016	Prepared By: Ben Ward, Product Engineer
--------------------------------	---

I. IDENTIFICATION

EMERGENCY PHONE: <p style="text-align: center;">CHEMTREC- (800) 424-9300 CCN: 19481</p>	Salem Fabrication Supplies 5901 Gun Club Road Winston-Salem, NC 27103 Information: (800) 234-1982
PRODUCT NAME: Salem White Alpha Alumina	
SYNONYMS: Aluminum Oxide	

Recommended Use:

Industrial polishing and material removal **Restrictions:**
N/A

II. HAZARD IDENTIFICATION

Classification (§1910.1200):

Not classified as hazardous according to GHS regulations.

Signal Word/Symbols: **NFPA 704**

Hazard Statement:

Harmful if swallowed.

May cause minor skin or eye irritation. Particulate may scratch cornea or cause other mechanical eye injury.

If Inhaled; may cause respiratory irritation through single use, or cause damage to lungs through prolonged or repeated exposure to concentrations in excess of the PEL or TVL without respiratory protection. This may also decrease the ability of the lungs to clear particulate matter which may cause shortness of breath and increase susceptibility to respiratory disease.

Precautionary Statement:

Wash hands thoroughly after use.

Wear protective gloves and eye/face protection.

Do not breathe dust. Do not use compressed air or dry sweeping to remove dust from work areas.

Wear respiratory protection for concentrations in excess of the PEL or TVL.

Store in dry area in closed containers.

Dispose of according to applicable federal, state and local regulation.

Miscellaneous Hazards:

N/A

Unknown Acute Toxicity Statement:

N/A

III. COMPOSITION

CHEMICAL NAME:	COMMON NAMES:	CAS:	% BY WEIGHT:
Alumina	Aluminum Oxide	1344-28-1	>99

Classified Impurities and Additives:

N/A

www.SalemFTG.com

Inhalation:

If inhalation of high concentrations occurs, move to fresh air. If breathing has stopped, a certified professional should give CPR. Seek immediate medical attention.

Skin Contact:

Wash contaminated area with soap and water. Wash contaminated clothing. Seek medical attention if symptoms persist.

Eye Contact:

Flush eyes with lukewarm water for 15 minutes, opening and closing eyelids to ensure adequate rinsing. If redness, irritation, pain, or tearing occurs, seek medical attention.

Ingestion:

Do not induce vomiting unless suggested by a doctor. Seek medical attention.

Symptoms/Effects:

Irritation

Level Of Medical Attention Needed:

Seek medical attention if ingested or systems persist.

V. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media:

Use media appropriate for surrounding fire.

Unsuitable Extinguishing Media:

N/A

Specific Hazards:

N/A

Special Protective Equipment:

Firefighters should wear a NIOSH/MSHA approved full-faced self-contained breathing apparatus (SCBA) operated in positive pressure mode, and full turnout or bunker gear.

VI. ACCIDENTAL RELEASE MEASURES

Personal Precautions:

Avoid dust generation. Water mist may be added as necessary to control the level of airborne dusts.

Protective Equipment:

Respiratory protection for clean-up personnel depends on the level of exposure anticipated. Use goggles and gloves.

Emergency Procedures:

Isolate hazard area and deny entry to unauthorized and/or unprotected personnel.

Methods for Cleanup/Removal:

Gently shovel or scoop into clean dry container for later recycle or disposal.

VII. HANDLING AND STORAGE

Handling Precautions:

Prevent formation of dust, and avoid dust inhalation. Use only in well ventilated areas. Any deposit of dust that cannot be avoided must be regularly removed. DO NOT use compressed air or dry sweeping to remove dust from work area. Wash thoroughly with plenty of water.

Safe Storage Conditions:

Store in dry area in closed containers. Protect from high humidity and water. Store receptacle in a well ventilated area.

Incompatibilities:

Store away from oxidizing agents. Store away from foodstuffs.

VIII. EXPOSURE CONTROLS AND PROTECTIVE EQUIPMENT

OSHA PEL: Aluminum Oxide: 15mg/m ³ resp fraction 15mg/m ³ total dust	ACGIH TLV: Aluminum Oxide: 1mg/m ³	OTHER EXPOSURE LIMITS: N/A
--	---	--------------------------------------

Appropriate Engineering Controls:

Use general ventilation. Local exhaust may be necessary for processes which generate large quantities of airborne dust. Keep exposures below applicable OSHA PEL's and ACGIH-TLV's.

Personal Protective Measures:

Under normal working conditions below acceptable exposure guidelines, none is required. For concentrations above the PEL but less than 10X the PEL, a NIOSH/OSHA approved dust mist respirator should be worn. Appropriate respirator selection will be dependent upon the magnitude of exposure and should be selected in accordance with 29 CFR 1910.134. Protective gloves, as needed, to prevent skin contact.

Safety-glasses with side shields or goggles to prevent dust and particles from entering the eye. See OSHA 29 CFR 1910.133.

Under dusty conditions, employees should wear coveralls or other suitable work clothing. Contaminated clothing must be vacuumed before removal. DO NOT REMOVE dust from clothing by blowing or shaking. Keep away from foodstuff, beverages and feed.

Reacts with strong acids, oxidizing agents, and with strong alkali.

Hazardous Decomposition Products:

Toxic metal oxide smoke.

XI. TOXICOLOGICAL INFORMATION

Possible Exposure Routes (Inhalation Etc.):

Eye, skin, inhalation, and ingestion.

Symptoms Related To Toxicological Characteristics:

Particulate matter may cause physical injury to the eye.
May cause respiratory irritation through single use. May cause damage to lungs or pulmonary disease through prolonged/repeated exposure to dust.
May cause minor skin irritation.
Ingestion of large quantities may result in gastrointestinal irritation and eventually interference with phosphate absorption which results in rickets.

Delayed, Immediate, and Chronic Effects:

N/A

Numerical Toxicity Measurements:

N/A

NTP/IARC/OSHA Known Carcinogen:

N/A

XII. ECOLOGICAL INFORMATION

Ecotoxicity:

Generally not hazardous for water.

Persistence and Degradability:

Inorganic, is not eliminable from water by means of biological cleaning processes.

Bioaccumulative Potential:
